HONGKONG OFFICE: 14. DESVŒUI ROAD CL.

LONDON OFFICE: 131, FLEET STREET, E.C.

Hongkong, 2nd October, 1903. THE North-China Daily News publishes a Tokyo telegram of the 27th September, stating that the Japanese Progressists have issued a manifesto, which is signed by Count ORUMA, insisting on "the necessity o restraining the Power which is encroaching on China and menacing Corea," The Japanese Government hardly needed this reminder, especially in view of the negotiations still apparently going on in St. Petersburg. But the issue of the manifesto shows what a keen watch is being kept in Japan on the situation in North-east Asia. No sooner does a pause occur than the Forward purty in Japan takes the opportunity of striking the note of alarm again - a policy which must somewhat embarrass the Government in its treatment of an enormously difficult state of affairs. The embarrassment of the Japanese authorities, however, is nothing compared with that in which the Chinese have been for many months now. Prince Ching is still reported | Dance...... as timorous, as shiftless, and as pro-Russian as ever. His latest intention, according to a Japanese correspondent in Peking, is to ask Japan, through her representative at the Chinese capital, to moderate her views in such a way that China may sign without delay the new agreement with Russia. This is a cool request; but Prince Curse is said only to be waiting on the result of the St. Peteraburg negotiations, meanwhile

to enter into his ideas, and the only cona disgraceful compact with Russia is fear. Nor does the position of Corea's advisers seem very different. The present government of that nation, even though it ventured, not long ago, to give orders to pull down a line of illegally erected telegraph-poles on the Corean bank of the Yalu River, is obviously inclined to favour Russian enterprise at the expense of Japan. This is as true now as it was when the Tokyo correspondent of the London Times pointed it out two months ago, adding "Japan will not suffer anything of that AND CARBOLIC SOAPS | "kind quietly. She knows now on what "small foundations Russin builds big edifices of Empire, and she understands what effect a Russian Corea would have on her own tranquillity. Possibly 'Russia's doings in the Yalu valley may have been intended originally as mere counter-irritant to the Manchurian " complication, but either St. Petersburg "or M. PAVLOFF seems to have forgotten how close Cores is to Japan in "reality as well as in history." With reference to this, it hardly seems likely that and elsewhere in Corea, was merely setting to work a counter-irritant to the Munchu- spreading to districts adjacent to the city. rian complication, as the correspondent suggests. There appears to be a good deal more determination behind her actions and a readiness to provoke Japanese popular hostility which is hardly consonant with the desire to make a simple feint. Until, however, it is possible to learn something about the St. Petersburg negotiations, if then, it is unprofitable to speculate on Russia's exact policy. The most hopeful critics of the situation think that she has advanced in Corea in order to be able to draw back and in return for this concession, to consolidate tainly unsafe to state this as a fact, seeing for how long a period Russia has been intriguing in Corea.

> Ar the Sanitary Board meeting yesterday it was mentioned in a discussion on the advisability of declaring Newchwang infeeted with plague, that in the Daily Press of the 28th September it was stated that reported from Newchwang. Our statement was based upon Japanese papers, but unfortunately we cannot now verify the exact source of the information which gave that number. However, it will be seen from a telegram to the Japan Mail from New-[31 chwang, as early as the 19th ultimo, that 202 persons had up to then been attacked by plague, which renders it probable that the later figure was no exaggeration, especially as the epidemic was showing signs of spreading to the adjacent districts. No tigures were telegraphed down in reply because, as we have said, we have been rookeries. unable to verify the exact source of our previous statement. Recently, at Peking, what is known as a 'tile shooting contest" took place between six picked soldiers of the British, U.S., and Japanese Legation Guards. The teams, says the China Times, drew for whom they should compete against; the Japanese were lucky, and drew a bye. This leaving the British and Americans to fire first, the Americans best their opponents by a single point, Americans and Japanese then drew up to advance down the range to try their luck, the Japanese being the winners by two points, the Ame ioun team only knocking d wa three, winners of the \$36 first prize. The American contest was over Major P. G. Rigby, commanding British Legation Guard, presented the prizes to the winning teams. The officer in command of the American team congratulated the Japanese team on their good shooting.

BEFORM MR. T. SERCOMBE SMITH (POLICE MAGISTRATE).

DARING ROBBERY. Two Chinese of the coolie class, by name Chenng Kan and Wo Kui, were charged with feloniously broaking into a dwelling-house, No. 10, High Street, on Wednesday, about noon. Lo Choi, in the box, stated that he was the occupier of the house, and owner the goods exhibited in Court, wis., articles of silk clothing, valued at \$180; 32 pieces of jewelry, worth \$265; \$30 in notes; three silver dollars; and sundry articles contained in a Chinese box; also a blanket and Chinese water-pipe, the total value being \$487. Evidence was given by complainant's cook of seeing the first defendant coming down the stairs

of No. 10 He gave chase, and, after an exciting ruo, during which the box was dropped by Cheung Kan, the man was arrested by a lukong. Chun Fak, a fokt in the shop at 10, High Street, saw Cheung carrying a box, resembling that of Lo Choi, on his shoulder : so he sent an apprentice upstairs to enquire if the box was missing. The second defendant, Wo Kui, was seen carrying the blanket, with the water-pipe hidden under his jacket. Witness arrested Wo. The apprentice stated that on going upstairs,

on told by Chun Fuk, hamet the second detendant coming down carrying a blanket; then he called out "Thief" and Chun arrested the culprit. Witness continued his way and found the staple of the door broken and a box missing. Chinese P.C. 388 gave evidence of arresting Cheung in Queen's Road West.

Cheung Kan gave the following explanation of his behaviour .-- When passing, he saw the door open, and entered, intending to numerous factors, the chief of which are a borrow a few dollars to pay his passage home. Seeing no one there, he annexed the box, not knowing what it contained. He also was in

past complainant's house, where some things had been lost. They caught hold of him, but promised to release him if the man with Government, affairs in the East, and apprehenthe box was captured. Cheung Kan stole the things; it was not him;

His Worship committed both defendants to the next Criminal Sessions.

The species was introduced into England about 60 years ago, but had been lest to cultivation for many years until it was before His Worship, who remerked that it was re-introduced to Kew in 1888. It flowered thore in 1801 and attracted much attention at the time. The corolla of the Kew plant measured 17 inches across and 5ft, in length, 3ft. of which was narrowed into a tail. Some of the first flowers on the plants in the. gardens here attained marly a similar, size. The colour of the flowers is creamy yellow thickly mottled with dark purple. It is a most evit-smelling plant, but flies are attracted to it in large numbers. The plant is grawing in a pot in the No. 2 house, and was, with another species, received from Hainan in 1893 from a native collector who had been sent down there to make a collection of the plants of the island. The flowers are produced in decurved racemes, 14 to 15 flowers to a raceme. The individual flowers are 2 inches across, and the sepals and petals are greyish white, with a blood-red central streak which reaches almost to the upex. The history of the species is of much interest. It was founded in 1869 by the late Professor Reichenbach, a great authority on orchids, on a plant from Assam sent to him by a Mr. Day, who was a large orchid-grower in augland. In the Flora of British India, published in 1890, Sir Joseph Hooker reduces it to a variety of Cymbidium courneum, but adds a note to the effect that he had not seen the plant. In 1895 it is described as a new species in the Journal of the Asiatic Society of Bengal, under the name a serious outbreak of plague at Nawchwang, of Cymbidium simonsianuin, by King and and from enquiries we ascertained that many Pontling. PUBLIC WORKS COMMITTEE. The DIRECTOR OF PUBLIC WORKS submitted the following minutes of the Public Works Committee.

Disinfecting Station at Kowloon. The Chairman (Hon. W. Chatham) laid before the Committee a plan for a disinfecting station providing similar accommodation to the existing one in the City of Victoria, with quarters for an Inspector attached, to be erected at Yanmati, and explained that the scheme was partly provided for in the current year's Estimates. The accommodation originally contemplated, however, was only a shed for the disinfector itself and quarters for an Inspector, but the Sanitary Board had since asked for an additional two-storied shed to contain stores and house the coolies employed at the station, besides offices and other accommodation. These additions brought the estimated cost of the

scheme up to \$27,000. The Committee unanimously agreed to recommend that tenders be called for the entire work and that, if necessary, a supplementary voto should be taken to meet this year's

Bacteriological Institute. The Ch irman explained that in consequence of the inability of the Public Works Department to undertake the work, the preparation of plans and estimates, &c., had been placed in the hands of Mesers, Leigh & Orange, architects. Preliminary plans had at first been prepared by them for a building in accordance with the Bacteriologist's ideas, the cost of which estimated roughly at \$60,000. After communication with Singapore and Shangbai, amended place on a reduced scale had been prepared. He now laid the plans before the Committee, the cost of the work being estimated by the a chitects at \$40.000. The site was in the upper portion of the Taipingshan resumed

According to the principle laid down in the case of the Straits Bettlements and the Federated Mulay States, the salaries of all non-clerical posts which exceeded \$1,200 a year were to be included in the Sterling Scheme; and officers appointed after the beginning of August, 1901, to any such posts came under the Sterling Scheme, regardless of the question whather or not they would have been entitled, under the existing rules, in virtue of demicile or in other respects, to exchange componsation. -I have, etc.

The COLONIAL SECRETARY also laid on the table another paper on the same subject. He said-I would like to explain that whereas was originally understood in the Colony that the sterling salaries scheme included only those officers who were in receipt of exchange compensation, it has been settled that it also includes non-cierical appointments the salaries of which exceed \$1,200 per annum. What was the nature of the enquiries which were made by the Government for the purthere were in the City of Victoria and in Kowloon in July last P

?. With reference to your answer to the 5th question which I put to you at the last incoting of the Legislative Council, is the contract which you referred to in that answer, a contract for training the nullah in question right down the northern face of the hill from top to bottom? What is the contract price for that work, and what is the date which is fixed for completion of it?

Are any steps being taken for the improve-Force with a view to the surer datection of hundred and thirty-eight thousand seven hunserious crimes?

What inducements are held out to Police officers for the study of the Chinese language and are such inducements smaller than they were formerly? The COLONIAL SECRETARY replied

1. Each District Inspector was instructed by the Acting Medical Officer of Health to prepare a return showing what nouses and floors within his district were vacant, and to give as nearly as possible the number of people these houses and floor could accommodate under the provisions of Ordinance No. 1 of 1903. The numbers given in my reply to the Honourable Member's former question on this subject were based onthe Returns so furnished by the Inspectors.

2. The contract is for training the nullah from Kennedy Road upwards to its upper termination. The work is being done on a schedule of prices, by measurement, as the nature of the ground rendered it practically impossible to prepare definite plans and quantities beforehand. No date of completion has been fixed in this case, but the work has began and it is anticipated that it will be comp sted in 3 months.

3. The extra allowances granted to Chinese detectives has recently been increased from \$2 to \$5 per mensem. The question of increasing the Detective Staff is noner consideration. 4. Money allowances of \$5, \$10 and \$15 a

month are made to the European and of \$1, \$2, \$3 and \$5 a month to the Indian Police according to the degree of proficiency they attain in knowledge of Chinese. Knowledge of Chinese is also under the Police Regulations taken into account in considering promotions of both

FINANCE COMMITTEE.

A meeting of the Finance Committee was held immediately after the Conneil, the Colonial Secretary (Hon. F. H. May, C.M.G.) presiding, and the consideration of the Estimates item by item was entered upon.

ECCLESIASTICAL GRANTS. The proposed vote under the heading Ecolesiastical" was \$2,400, made up as follows :- Grant for R.C. chaplain for gaol and hospital, \$600; grants for Protestant chaplains for gaol and hospital \$1,400; grant for buridle,

Hon. Mr. STEWART said he believed this work was always increasing. The number of sick people in hospital and prisoners in gaol got larger and larger each year, and there were more people to be attended to. If the various denominations would do this work it was better than getting it done in any other way; and he thought there was a general opinion among the unofficial members that this vote might without any injustice be increased.

Hon Sir PAUL CHATER said he was of the same opinion. It was the view of the unofficial mombers that the vote should be doubled They would ask the Chairman to bring the Exchange compensation was prior to the matter before the Governor as a recommenda-

The CHAIRMAN said that the vote was increased by \$200 as from 1st January of this year on the application of the Church Body. Hop. Sir PAUL CHATER remarked that they

were aware that it was increased in 1902 for 1903. There was no proposal in the Estimates Hon. Mr. Pollock put the following to increase it further next year. The vote now stood at \$2,400. They asked that it should bedoubled-\$4,800. They hoped the Chairman would bring it before His Excellency.

The CHAIRMAN said be certainly would so, but he thought hon, members in support of this recommendation whould furnish some figures showing th a rvices rendered. His opinion was that if there were increased services rendered to the large number of patients in hospital and prisoners in gaol the Committee ought to have some facts before them. If they established a case he had no doubt His Excellency would bring it under the notice of the Secretary of State for the Colonies; an increase could not be made without his sanction.

Hon. Sir "AUL CHATER-We would like you to mention it.

The CHAIRMAN-Certainly.

The vote was passed.

PLAGUE EXPENSES. Hon. Mr. Stewart in making some remarks upon the Sanitary Department vote of \$487,522 said they all admitted the necessity of precautions being taken against plague, but th y could not help feeling regret at the enormous figures brought before them. There was a big staff provided for and he saw there were two items also of \$80,000 for scavenging and \$2.00 0 for coolies. He would like to ask whether, when the plague was not, with us, there was any saving effected or how these plague coolies were kept employed, because he supposed that, as with every other sort of body that was not constant'y exercised, the staff was apt to get a little bit rusty. This was the only opportunity the taxpayers had of looking at this account, and it was only fair that they should be quite clear in their minds that for the fairly liberal pay they gave to those men, good work was being done. It was a very great sut-back to notice that the minor charges came to \$28.00 and he thought they would be relieved if they got an assurance from the Chairman of the Sanitary Board that this money was being well

Hon. Dr. ATKINS N replied that the increase of the staff was largely due to the recommendation . of the sanitary experts, which had been approvplague staff should be appointed quite distinct from the ordinary staff of sanitary inspector- : and that the staff should be increased correspondingly to the increased number of plague cases they had to deal with. This was approved of, and an organised trained staff to deal with these unnually recurring epidemics of plague had been established. It would be evident to a l hon, members, that it was an im- that, tenders had been called for for increased in number. as is contemplated in your despatch No. 512 | reading of a Bill entitled an Ordinance to cortain number of officers employed, and that more than 20 cases a week the staff was at a certain strength; if the cases increased to not more than 50 the staff was increased correspondingly; and if there were not more than 80 a still further increase was made. As the epidemic declined so the number of those employed decreased in a corresponding manuer; or, as the cases diminished in number so did the staff. The astimate for next year was based on the number of cases there were this year. With reference to the \$80,900 for seavenging the City and Hill district, referred to by the hon. member, that sum was paid to the contractor for removing refuse from the houses in Victoria and the outlying villages and for removing the street refuse also. He was paid so much a month and engaged the coolies himself. required for the coolies that had staff to deal with plague cases as they occurred. They removed rubbish from infested houses and took clothing to the disinfecting station and were employed for any other purp se that might be required, such as conveying water for cleansing purposes to the houses when water was scarce. As the epidemic decreased, these coolies were of course discharged. At present they had none such amployed. He thought that went to show that a due shock was being kept on the expense. Certainly it did seem high, he might state that the expenditure for the first six months of this year on plague had been \$110,000 less than the expenditure for the corresponding period last year, when they had 1.000 more cases of plague to deal with. Hon. Mr. STEWART-1 am very glad to have

heard this statement. . The CHAIRMAN thought the figures given by punishable on summary conviction to receive the Chairman of the Sanitary Board showed not be removed, he presumed. or harbour a woman married according to the th m just what could be done with a little law or custom of China who, without reasonable organisation. There was no doubt that since things had been authorised in the Estimates instead of being charged upon open vote a very great saving had been effected. Every endeavour these matters were brought before the Finance would be made to see that the public. got value for their money. The increasing expenditure in the Department had caused the Government a good deal of anxiety. Some time ago be called for a report showing exactly how the plague staff was employed at the present time, and when he was furnished with it he the prison on Stonecutters'. These matters would lay it on the table.

Hon. Sir PAUL CHATER-That will natinfactory, sir.

The vote was approved. THE BENTING OF "BEACONSFIELD." Under the heading " Miscellaneous Services " there appeared the item, Rent for Government Offices ("Beaconsfield"), 87,800.

tion. Mr. Pollock asked on what terms Benconsfield " had been taken? The CHAIRMAN-Three years, Hon, Mr. POLLOCK asked if it was expected that the Sanitary Department would be able to

move in o the new building then? The CHAIRMAN answered in the affirmative. They had taken "Beaco sfield" for three years with the option of renewal for snother year. and they hoped before the expiration of that period to be in the new building above the Post

The vote was passed. GUNPOWDER DEPOT ON GREEN ISLAND. For the provision of a gunpowder depot on Green Island a vote of \$15,000 appeared in the Estimates. Hon. Mr. POLLOCK said be understood that

the depot was going to be removed from Stonecutters' to Green Island to make way for the Couriet Pris a. The WHATRMAN-That is the intention. Hon. Mr. POLLOCK-Has it been decided?

The CHAIRMAN-Yes. Hon. Mr. POLLOCE remarked that \$15,000 seemed a small amount to expend out of the total estimated cost of \$107.000. How many years was it supposed to take to effect the transfor from Stonecutters to Green Island? The DIRECTOR of PUBLIC WORKS said it was

estimated that that amount would be sufficient for what was required to be done next year. Until the preliminaries had been got through in the way of getting the contracts fixe. progress would be slow and the work would consist of excavation and reclamation operations, so that possibly that amount would be sufficient. The CHAIRMAN further stated that it was

the intention of the Government to put the prison there. As the lion, mem er would sea from the report that had been put on the taole the matter rad been under the consideration of the I ublic Works Committee. . Vote passed.

THE NEW LAW COURTS. \$60,000 was the sum 'proposed to be voted in respect of the new Law Courts. Hon Mr. POLLOCK asked when the Courts

were likely to be finished? The DIRECTOR OF PUBLIC WORKS replied that the present contract was a three-years' one and did not include the internal finishings. He would say that the buildings would take four years to build. The principal factor in the building operations occupying such a long time was the very large amount of stone work about it. The building was faced with stone externally from top to bottom.

the vote was approved. WANCHAL MARKET EXTENSION. There appeared in the Estimates a vote of \$2.000 for the Wanchai Market extension work,

out of a total of \$7,000 estimated cost. Ho . Mr. Pollock ssked why it had taken so long to expend this money. The estimated cost was \$7 000 and the estimated expendfor this year was \$3, 00, and for 1904 82,000. Apparently they were going to ! take three years to carry out this little extension | was the same as the previous vate. costing only \$7,000.

The DIRECTOR of PUBLIC WORKS said that was not quite so. The work would be finished about Christmas this year, but though it was finished the whole amount due to the contractor could not be paid till next year, because he had to maintain the place for a certain period after it had been finished, and a balance must be kept in hand until the period maintenance expired. Vote passed.

WESTERN MARKET, On the proposed vote of \$20,000 in respect of the Western Market. Hon. Mr. Pollock asked when the market

was likely to be completed? The DIRECTOR of PUBLIC WORKS said he thought it would take about two years or eighteen months. There had already been of these recommendations was that a permanent expended some \$40,000 on the foundations for Vote passed.

THE NEW POST OFFICE. A vote of \$40,000 for the new Post Office was proposed in the Estimates. Hon. Mr. Poll on saked when the Office was likely to be completed?

The DIBECTOR of PUBLIC WORKS replied provement to have a trained staff at their disposal foundations, and the foundations would occupy rather than to depend on men they might be. twelve months. After that the remainder of able to pick up hapharard as the cases of plague | the work would occupy from two and a half

THE PRISON ON STONECUTTERS'. In respect of the proposed new Convict Prison on Stoneoutters, a ve c of \$20,000 was proposed. In roply to Hon. Mr. POLLOCK. The DIRECTOR OF PUB. 10 WORKS stated

that the estimated cost of the work was \$236,000 and the accommodation was 246 prisoners. Hon. Dr. Ho KAI said he thought the prison scheme was under consideration by the Public Works Committee. Suppose the Committee were against the scheme would this money not be spent, even although it was voted there? The CHAIRMAN stated that they would have to build another prison somewhere. If it was not built on Stonecutters' the money would have to be spent in building it somewhere else.

Hon. Dr. Ho Kai suggested that if the Committee were against the scheme the money would not be spent, for he understood it was a recognised thing that no public work was undertaken without the approval of the Committee. The COLONIAL TREASURER-No. Hon. Mr. POLLUCE said it seemed a pity that

the votes should have to come on before the Committee had dealt with the matter. Supposing Government decided not to build the prison on Stoneoutters' then the gunpower depot would The COLONIAL TERASUREE-Then you save

Hon. Mr. Pollock repeated that it was a pity that the Committee could not report before Committee.

The CHAIRMAN remarked that the gunpowder depot had to be reconstructed in any case. Objections had been raised to it slready on account of its insecurity against shell fire. The guapowder depot really did not depend upon were referred to the Public Works Committee some time ago, and they had to secure a good deal of information before they could report. But that really did not affect these items.

Hon. Dr. Ho Kai explained that the reason he raised the question was that they might be committing themselves, by voting that money, te the prison on Stonecutters'.

The CHAIRMAN—Certainly not; it is just put in to identify it. The vote was agreed to.

SCHOOL AT YAUMATE. There appeared in the Estimates an item School at Yaumati; estimated cost, \$21,500; estimated expenditure next year, \$15,000. Hon. Mr. POLLOCK asked what school this

The CHAIRSIAN stated that when Mr. Ho ment and agreed to make it a school for European children only instead a mixed achoul as he originally intended, the Government promised to provide a school for Chinese children at Yaumati. This was the school. The vote was passed.

RECONSTRUCTION OF GULLIES. \$20,000 was proposed to be voted for reconstitution of gullies. Hon. Mr. Pollock asked if that would

complete the reconstruction of gulles ? " The Disector of Public Work said be thought the work would be completed well within the estimates. Possibly that sum might be found sufficient to complete the work. Vote agreed to.

NEW TERRITORY SURVIY. Referring to a proposed vote of \$6,000 in NOTICE IS HEREBY GIVEN that the respect of the New Territory survey. Hon. Sir PAUL CHATER asked what was channel is now clear. the scale of the maps ?

The DIRECTOR of PUBLIC WORKS replied that the scale of the small map was one Approved, i ch to the mile. Another map was being prepared with a scale of two inches. For the cadastr I maps, 16 inches, 32 inches and in some casses 64 inches to the mile were used. The vote was agreed to.

PRAYA EAST BECLAMATION. In respect of the Praya East Reclamation a vote of \$10,000 was proposed.

Hon. Mr. Pollock asked why the work was The CHARMAN stated that it was owing to Export Agents for specially selected brands of not being proceeded with P the great deal of trouble they had had in fixing the boundaries of the various departments above for CASH at wholesale rates. Write or interested.

Vote approved. COMPENSATION. Under the heading "Public Health and Buildings Ordinance, I of 1903," it was proposed to vote \$60,000 tor compensation. Hon. Mr. STEWART asked what this was

The CHAIRMAN said it was paid in cases, for instance, where they took away part of a house to form a back lane, or where a man lost a storey. This was a low estimate. As time went on and more houses came down they would have to pay a great deal more. Hon. Mr. STEWART-How is the compensa-

tion arrived at? The CHAIRMAN-There is a Board of Ar itration. It is all in the Ordinance. The vote was passed.

Under the same heading there was an item of \$35 ,000 for in anitary property resumptions, Hon Mr. STAWART wanted to know if this

The CHAI : MAN intimated that it different thing altogether. In this work they had been carrying out the recommendations of I rofessor Simpson. The DIRECTOR of PUBLIC WORKS added

that in the event of private argotiations falling through with the owner, the Crown Land Resumption Ordinance provided for a reference to arbitrators, so that where negotiations failed there was still recourse to this clause. Hon. Mr. STEWART asked what scale the N and after the OTH SEPTEMBER, the owner would be paid?

insanitary property; if property was insanitary certain deductions were made. The vote was agreed to. THE NEW BIFLE BANGES. There was in the Estimatesau item proposing to devote \$14,000 for the construction of butts at the new rifle range at Kewloon, \$5 00 for

the diversion of roads, and \$20,000 for the resumption of private property. Hon. Mr. Pollock desired some information on this item. The CHAIRMAN raplied that the vote referred

to the construction of new rifle ranges behind Kowloon City to replace the rifle ranges on what was going to be the King's Park. They had to provide rifles ranges in substitution for those that are now situated on the site of the King's Park. As soon as the new butts were constructed the Park would be thrown open to the (Continued on page 5.)

THE TYTAMTUK SCHEME. \$100,000 was proposed to be voted in respect of the Tytamtak Scheme.

Hon, Mr. POLLOCK asked when this scheme was likely to be completed P The DIRECTOR of PUBLIC WORKS WAS unable to give any definite date. 'He hoped a start would be made with in ch of the work next year, but it was impossible at this stage to give positively any date as to when it would

probably be completed. Hon. Mr. Pollock asked how far thescheme had got at present?

The DIRECTOR of PUBLIC WORKS said the site for the principal dam had not yet been determined. The site for the minor dam had been decided upon and work would be undertaken at a very early date; but the site of the main dam had not yet been decided upon on account of the unfavourable results of the operations already carried out. The CHAIRMAN-Close to the signal station,

on Blackhead's Hill. Hon. Mr. POLLOCK expressed the opinion that the present red drum and cone system worked very badly and was most unsatisfactory. All throughout the previous day and Tuesday there was a red south cone hoisted with the result that most of the janks and native craft went, away to the refuge at Causeway Bry. It would be a very good thing if the red signal was abolished. t was quite a sufficient

warhing if the signal was hoisted when a [2205] typhoon was within 300 miles of the Colony. The CHAIRMAN stated that the Council was voting this money because the Chamber of Commerce said the signals were sufficient; they wented a for more elatorate system. The red signal was not for the information of harbour boats but of the masters of vessels about to leave port. In many cases the junk people disregarded the signals altogether. Probably on the day referred to

they had thought the weather looked dirty. The red signal did not inviente a typhoon near at hand but more than 300 miles off. The COLONIAL TREASURER held that the Government could not be blamed for over-cau-

tion on the part of the junk-owners. The CHAIRMAN-No; the complaint generally is that we do not give them sufficient information.

The vote was agreed to. REGISTRAR-GENERAL'S DEPARTMENT. The Governor recommended, the Council, to vote a sum of \$1.794. 7 in aid of the vote Registrar-General's Department, Other Charges, meat expenses in connection with the copying

SUPREME COURT.

Thursday, lat October.

IN STRIMARY JURISDICTION

BEFORE HIS HONOUR A. G. WISE (Puisne Judge).

ACTION FOR MALICIOUS PROSECUTION. A case was called in which Su Kin Shoung, broker, 200, Queen's Road Central, sued Cheung Wan Chau, 178, Reclamation Street, for \$1,000 damages for malicions prosecution. Mr. C.IE. H. Beavis, of Messra. Wilkinson & Grist, solicitors, appeared for the plaintiff, and Mr.

O. D. Thomson, solicitor, for the defendant, Mr. Thomson put forward as a preliminary objection that no notice of the action was given, whereas it should have been given under Section 93 of the Larceny Ordinance.

His Lordship held that the objection was not good and ordered pleadings.

The Court adjourned.

London, 18th September. Mr. Spencer, the well-known aeronaut, successfully navigated an airship across London last night.

A STEAMER MISHAP.

Paris, 25th September. It has been cabled from Aden that a Russian steamer has brought in the passengers of the missing steamer Amiral Gueydon. The steamer caught fire off the Arabian coast. Of her 32 passengers, 30 are safe and sound; one sailor has disappeared.

RATS AND PLAGUE. Paris, 25th September. A decree orders the destruction of the rats on board vessels in ports contaminated with plague or suspected ...

FRANCE AND MOROCCO. Berlin, 25th September. The French Press is freely discussing the advancement of France in Morocco. It is probable that a treaty between S ain and France, for the division of the country, has already been concluded. The French Ambassador in London, 4. Cambon, is urging the British Government to acknowledge the treaty. France is to renounce all her claims in Egypt, Tangier shall be made a free port, and France shall establish a protectorate over the interior of Morocco.—O. Lloyd.

by sickness, is responsible for greater tour life, and infinitely more prolonged misery, than the most desolating was that was ever waged. Wars break out, rage florcely, subside, and there is peace once more in the hand; but everywhere and always there is a proportion of the people who are sick and ailing; who cannot properly sustain their part in the competition. of life, and whose time is passed in suffering pain, from which they perceive no way of escape except by death. In Il ages the wisest and noblest of mankind

have expeted their mental power to the utmost

to avert, so far as may be, the suffering and wastage of humanity, and they have been rows ded by a large measure of success. The evils we deplore, great as they undoubtedly still are, have been eno mously diminished by their efforts. Many modes of treatment formerly in high repute have been proved by modern science to be positively detrimental to patients, while remedies have been discovered of such wonderful efficacy that the cures they work would have been accounted miracles in a darker and more superstitions age. The foremost place among these disease-dispelling life-savers must be given to Mother S-igel's Cufative Syrup. For thirty-fire years that great remedy has been doing its humane work in all parts of the world. No other medicine is so much esteemed nor likely to be while people voluntarily write of it in terms such as those employed by Mr. Isano T. Sihiya, of Engunjini, Sacrezowood, P.O., Grigudand East, Cape Colony, who, in a letter dated 10th Jane, 1908, says: "I am convinced that but for Mother Seigel's Curative S rup I should not be alive to-day. Some years ago I had a bad fall from my horse, and sustained a great shock. I lay for a long time on the ground helpless, and when assistance arrived it was found that I h d severely sprained my spine. After a while I recovered somewhat, and was not greatly troubled by my accident until after I entered upon my present duties as Forest Guard for this district. The work at that time was very hard, the people being unruly and giving much trouble. I had to be on horseback the greater part of every day, and very soon my back bagan to trouble me again. My kidneys were affected and caused me dreadful pain Miny times I was obliged to dismount, from my horse and walk, leading the animal behind me; for I was not in a position to g ve up my work. A doctor whom I consulted informed me that one of my kidneys had been displaced, and was otherwise injuriously affected. For three years I suffered in this way, and none of the medicines I tried benefited main the least. But one day a friend gave me a little book to read, and advised me to try the medicine described therein, which proved to be no other than Mother-Seigel's Curative Syrup. I fo. lowe : his advice, and to that fact owe the good health I now enjoy. I am confident that I could not have continued much longer to endure the terrible unguish with which I was afflic ed before resorting to Seig I's Syrup."

Tes imony such as this must convince even the most sceptical; yet let it not be forgotten that Seigel's syrup is the unrivalled remedy for i digestion and of the numerous complaints my family," writes Mr. C. F. Morsoer, of French, Hook, Paarl Division, Cape Colony, 15th June, 1903, "we keep Seigel's Syrup as our house doctor. It cared me of liver complaint. I have recommended it to numerous people, and always with satisfactory results."

Humanitarians look forward to a time when suffering shall be reduced to its lowest possible limit, the goal alike of the best politicians and physicians.

Though the cost of making finest toilet soaps has nearly doubled, the retail price, ingredients, and superior quality of Vinolia Soap remain unchanged. For the complexion.
